

Community Resource Guide

Covering Clark and Fayette Counties

Rev. 03.05.2021

Community Resource Guide

This guide is designed to help you locate resources in Fayette and Clark Counties. The guide is categorized based on specific needs (i.e. food, clothing, shelter, etc.). Many resources are free; however, some resources may require a sliding scale fee, government-assisted insurance, or private insurance. The guide will be updated as needed due to the constantly changing community resources. By no means is this to be considered an all-inclusive guide to the many resources within our communities and no guarantees are made to the availability of services for individuals and their families with the resources. Additional resources, if found and verified, may be sent to info@cte.edu. Please include business name, website, email (if possible), definition of services and area that new business should be included.

Included in the guide are specific businesses that have expressly offered services to the under-served, income prohibited and/or under-publicized businesses that offer community services to the local area. Some services may be duplicated under other headings. If any errors or incorrect information is enclosed this guide, we ask that you contact us at info@cte.edu and corrections will be made as soon as possible. We make no guarantees of assistance through these agencies/businesses, this is strictly informational.
